

FAN FEEDBACK

"Great work by this band last night-was really blown away by their performance. Can't remember the last time I heard a band performing original music! Really enjoyable. Great originals, super fun stage presence, but the blend and space in the tunes made everything just really work. Kudos guys!!

Love the blues/jazz and almost folk type sound and the variety they have in this genre! So easy to listen to and fun too. The stories behind their original songs bring a personal touch and connection. Everyone in the band is very talented!

"The skilled group of musicians, and singer-songwriter Amy Young! It feels like she is writing a love letter to all of us in Michigan. I appreciated hearing such great original music and hope others get the chance to hear Daves At 7 to. A "Daves at 7" performance make you feel like you have come home after a long exhausting journey away."

"Dave At 7's first group album is available now to the delight of country and folk fans! On "Blue Collar Baby" DA7 offers enjoyable pop sensibilities but more diverse deeper cuts that stand on their own, combining bluegrass richer than your mama's biscuits and gravy, ukulele love songs, and even a detour through smoky lounge-music jazz.

Songs like "Carolyn" show off Young's beautiful voice, combined with the '70s country-reminiscent instrumentals, hearken back to the days of Emmylou, Dolly and Linda."
